

# APRIL NEWS

## A NOTE FROM MS. BECKY & MS. MADDIE

We've had a super busy month of March. It definitely came in like a lion and out like a lamb! Spring is here, and we're starting to notice all the beautiful changes that go along with it. We finished up our Magnet & Science Experiment themes, covered many holidays, and celebrated Read Across America with a week of Dr. Seuss. We've worked on the letters Ii, Xx, Zz, and Kk. They are learning so much!

## OUR LEARNING FOCUS

This month we will be learning about taking care of the environment which will lead us into Earth Day on April 22nd.. Then we will be learning about rhyming words through songs, stories, and musical instruments. We continue to focus on letters, and this month we will be learning about the letters Rr, Jj, and Tt. Every week we practice writing letters, numbers, and sounding out words. Math games always keep learning fun and interesting for the children, and math is always integrated into our lessons. Soon we will finish our Artist of the Week activities which will culminate in our art show. We can't wait for you to see all of the beautiful art work your children have been making!
