

March Newsletter

Mrs. Rutkowski & Ms. Janine

February flew by and we are wrapping up with dental health week
And leading into health unit. There will be two dojo sign up links here.

With March here, we are in the home stretch but it seems as if it was just September. We will start off by having fun learning about Good Nutrition and trying new foods . We will learn about eating the rainbow of foods. We will let you know our most favorites when we finish. Sign up on google docs. Link in dojo story and below.

During March we will meet and greet Spring, and St. Patrick's day. The themes will include , Rainbows, , Leprechauns, and our art Show Display Will be the week of March 11.

Conference week is march 6. Also a google sign up. SO TWO !!

We are having fun and playing but please do not underestimate how much we are learning. All of the children have begun to grasp concepts of rhyming, letter recognition as well as identifying numbers, counting, beginning letter sounds and letter concepts.

We are practicing everyday how to be kind and work at the sense of community and helping one another. We are continuously being impressed by their new discoveries and rising to challenges.

We may begin to enjoy warmer weather but continue to send appropriate outerwear including hats and gloves and footwear as we continue to go outside for play as much as we can.

Thank you repeatedly for your support.
